

ON A MISSION IN THE DOMINICAN REPUBLIC

In the

in

My name is Shannon My Hermann and I am putting this picture out there of a little girl I got to know on my mission trip to the Dominican Republic this summer. This is a young girl named Lisbet who attends the sp. ed. school where I worked. She is probably around 12 or 13 years old and severely disabled. She cannot speak or do any other normal daily tasks, but the one thing that she can do to an unfathomable extent is love. She goes up to complete strangers and just smiles at them or holds their hands or lays her head in their lap. To Lisbet, it doesn't matter how you look, how you treat her, or if you are fun to be around. She loves you unconditionally, much like Jesus loves us. If we could all treat each other this way, I think that the world would be a different place. :)
