

THE DOMINICAN REPUBLIC
Medical Rounds with Dr. Fernando
October 2009

PRAISE GOD AND ALL HIS FOLLOWERS

My name is Tracy Shenkman and I was lucky enough to have gone on a mission trip to the Dominican Republic with my daughter Mills. I asked to work with the medical team, setting up portable clinics in tiny village squares, Mata Gorda school, and wherever Dr. Fernando led us. We worked with young children and the elderly as well. I have never been closer to God, in my life, than I was in Jarabacoa. Serving as His hands and feet was the biggest blessing in my life. The tug in my heart to return is getting louder and louder.
